FULL-STACK SOFTWARE ENGINEER / AI ENGINEER

◆ PROFILE

Full-stack software engineer with **6+ years** shipping scalable web applications — social networks, CRMs, automation systems, accounting platforms, and reservation APIs. I'm fluent at **uncovering what a product owner actually needs**, learning the domain fast, and turning it into clean, modular, well-architected systems. I build **AI agents and AI-augmented workflows** into how I work and ship — and I treat slow queries and heavy pages as bugs to be fixed.

◆ EXPERIENCE

Full-Stack Developer Web Negah · Tehran, Iran

Feb 2025 – Present

- Design and build web apps, CRM systems, and PWAs across a range of client projects.
- Engineer **multi-agent AI systems** and documentation frameworks (Rules) that accelerate the whole team's delivery.
- Build modular, reusable packages that speed up the start of every new project.

Full-Stack Developer · Lead Iran Technology · Tehran, Iran

Oct 2019 – Jul 2025

- **Lead developer of Eventoment**, the company's flagship social platform for event management.
- Cut a critical flow from **~900 database queries to ~30** through eager loading and query optimization.
- Raised **SEO to an A score** and used Webpack bundling to shrink payloads and accelerate page loads.
- Tuned server infrastructure and databases for performance and scalability across the platform.

◆ SELECTED PROJECTS

Eventoment

Iran Technology · Lead · 2021
Social platform for local events.
Built the **GitHub Actions CI/CD** pipeline and the **Nuxt.js** frontend.
eventoment.com

Safar 360

Iran Technology · 2018
Travel-booking platform. Built the **multi-tenant ticketing core** for selling agencies — air, rail & bus.
safar360.com

Steel Rizan

Web Negah · 2025
Industrial-operations platform with a **custom-formula engine** driving its pricing system.
faraz.steelrizan.com

AtiehOmid

Web Negah
Dashboard for bank users and their investigators. **Laravel · Livewire · Filament**.
spr.atiehomid.com

Azar PMR

Web Negah
Operations platform with per-cell custom formulas built in **Alpine.js** on Filament & Laravel.
app.azarpmr.ir

OnYar

Web Negah
Health & disease content platform on a **nwidart modular** architecture with per-module testing.

◆ TEACHING & OPEN SOURCE

YouTube — Content Creator. Live-coding videos and maintaining open-source packages for the developer community.
